

Other useful Computer Programs

Tabledit

Tabledit has a free demo version but it is limited. It costs about 60 dollars for the full version.

Tabledit can import ABC files. File / Import / Import ABC
If in code, copy the code into EasyABC and save it as an ABC file then import into Tabledit.

Audacity

It is a free program that has many features. It is useful to slow down an Mp3 file so you can hear the tune more easily. It keeps the tune in same key.

Select / Select All then choose Effect / Change Tempo / Reduce by -20 using slider as an example

Convert M4A to MP3

A simple free online program "Convertio"
